SEPTEMBER MEETING- Our next meeting will be on Friday, September 17th, at the home of Rufus Carter, 814 Rio Vista Circle, SW. It will be held at 7:30 PM. Bob Britton hopes to line up a speaker from the VLA in Socorro to tell us about the activities and equipment down there. If the speaker cannot make the September meeting, we hope to have him come in October. A detailed map showing the location of Rufus' home is below.

AUGUST MEETING SUMMARY- We heard an interesting and in depth presentation from Bob Harnar who spoke on power generators used in the space program. Bob Britton said the VLA Open House which we will attend will probably be on a Saturday early in November. The exact date hasn't been firmed up yet, but hopefully this information will be available by the September meeting so that those of you who want to attend can set aside the date.

NEW MEMBER Robert Stokes, P. O. Box 301, Peralta, N. M. 87042, 869-2079
